BEFORE THE STATE OFFICE

OF

ADMINISTRATIVE HEARINGS

**FILING OF SECOND SUPPLEMENTAL AFFIDAVIT OF NOTICE**

TO THE HONORABLE ADMINISTRATIVE LAW JUDGES:

LCRA Transmission Services Corporation (LCRA TSC) files its Second Supplemental Affidavit of Notice in this proceeding, attached hereto.

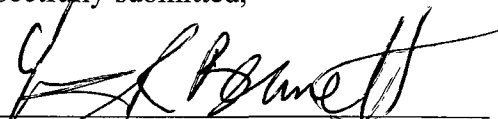

**I. BACKGROUND**

On November 7, 2018, LCRA TSC mailed notice of the application in this docket to owners, as identified on tax appraisal district records, of land directly affected by the joint application by LCRA TSC and AEP Texas, Inc. in this docket. Subsequently, some mailed notices were returned to LCRA TSC, marked as undeliverable by the United States Postal Service. Upon review, LCRA TSC determined that the mailed notices to three owners of directly affected land either contained an error in the mailing address that LCRA TSC used in originally mailing notice of the application, or that the address had changed from that used by LCRA TSC in mailing notice of the application. Therefore, LCRA TSC corrected or updated the mailing addresses and resent notice to these three affected landowners. Attached is the Second Supplemental Affidavit of Notice of Ms. Sonya Miranda, confirming the information provided herein and the steps taken by LCRA TSC to ensure that the affected landowners received notice of the application.

For one of the affected landowners, the second notice was delivered more than 15 days prior to the intervention deadline of December 27, 2018. Thus, that landowner had until that original intervention deadline to intervene. However, for the other two affected landowners, the second notice was sent after the intervention deadline of December 27, 2018. Consistent with 16 TAC § 22.52(a)(3)(E), LCRA TSC's second notice informed these two landowners that they had 15 days to intervene from receipt of the notice. Based on the dates of delivery of the notice to those two landowners of January 8 and January 10, 2019, their respective intervention deadlines are January 23 and January 25, 2019, pursuant to 16 TAC § 22.52(a)(3)(E).

Currently, LCRA TSC does not believe it is necessary to adjust the procedural schedule in this case. LCRA TSC has attempted to contact by telephone the two landowners who received notice after the intervention deadline to discuss this matter. As of the date of this filing, LCRA TSC has not received any indication that either landowner intends to intervene in this docket. Accordingly, LCRA TSC believes it is appropriate to proceed under the existing procedural schedule.

**SECOND SUPPLEMENTAL AFFIDAVIT REGARDING NOTICE**

**STATE OF TEXAS**     §  
                                 §  
                                 §

BEFORE ME, the undersigned authority, on this day personally appeared Sonya Miranda and, being by me duly sworn, upon oath declared that the statements and capacity acted in are true and correct.

“My name is Sonya Miranda. I formerly went by the name Sonya Strambler, and I am the same Sonya Strambler that submitted affidavits previously in the above-referenced docket. I am an employee of the Lower Colorado River Authority. I am over twenty-one years of age and I am competent to make this Affidavit. I have personal knowledge of the facts contained herein and they are true and correct.

After LCRA TSC mailed direct notice of the application to owners of directly affected land in this case on November 7, 2018, some of the mailed notices were returned to LCRA TSC, marked as undeliverable by the United States Postal Service. Upon review, LCRA TSC determined that the mailed notices to three identified owners of directly affected land either contained an error in the mailing address that LCRA TSC used in originally mailing notice of the application, or that the address had changed from that used by LCRA TSC in mailing notice of the application. Those three identified owners of directly affected land are: Joanne Lincoln; Texas Biomedical Research Institute; and the Robert A. Welch Foundation.

In regard to Joanne Lincoln, LCRA TSC determined that the mailing address of the original mailed notice contained a typographical error, reflecting a street number of “968” rather than the “988” reflected on the appraisal district records. Therefore, LCRA TSC corrected the mailing address and resent notice to Ms. Lincoln on November 29, 2018, via first-class mail. In regard to the Texas Biomedical Research Institute, LCRA TSC determined that the mailing address of the original mailed notice contained a typographical error, reflecting a post office box

of "460549" rather than the "760549" reflected on the appraisal district records. Therefore, LCRA TSC corrected the mailing address and resent notice to Texas Biomedical Research Institute, via Priority Mail Express Flat Rate Envelope for overnight delivery. Delivery of such notice was confirmed on January 8, 2019. A copy of this notice is attached as Exhibit A.

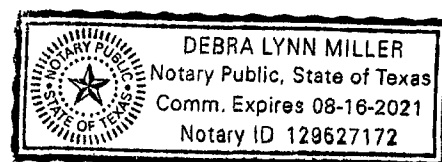

In regard to the Robert A. Welch Foundation, LCRA TSC determined that the mailing address used was the address reflected on the appraisal district records for 2017, but the 2018 appraisal district records contained a different mailing address when checked by LCRA TSC staff after receiving the original notice returned as undeliverable. Telephone communications by LCRA TSC staff to a representative of the Robert A. Welch Foundation confirmed that the mailing address for the foundation's representative had changed. Therefore, LCRA TSC corrected the mailing address and resent notice to the Robert A. Welch Foundation, via priority mail with delivery confirmation. Delivery of such notice was confirmed on January 10, 2019. A copy of this notice is attached as Exhibit B.

"Further, affiant sayeth not."

Sonya Miranda

**Re:    *Joint Application of LCRA Transmission Services Corporation and AEP Texas Inc. to Amend their  
Certificates of Convenience and Necessity for the Proposed Bakersfield to Solstice 345-kV Transmission Line  
Project in Pecos County, Texas***

**PUBLIC UTILITY COMMISSION OF TEXAS (PUC) DOCKET NO. 48785 (ORIGINALLY  
DOCKETED SEPARATELY AS PUC DOCKET NO. 48787)**

Tract ID: C-005

Dear Landowner:

This letter is to inform you that LCRA Transmission Services Corporation and AEP Texas Inc. are requesting approval from the Public Utility Commission of Texas (PUC) to amend their Certificates of Convenience and Necessity (CCN) to construct the proposed Bakersfield to Solstice 345-kV Transmission Line Project in Pecos County, Texas. The proposed transmission line will connect LCRA TSC's existing Bakersfield Station located approximately 38 miles northeast of the City of Fort Stockton off of Farm to Market Road 1901 to AEP Texas' existing Solstice Switch Station located approximately 29 miles west of the City of Fort Stockton on the north side of Interstate Highway 10 near Hovey Road. LCRA TSC will construct, own, operate and maintain the eastern half of the transmission line connecting to LCRA TSC's Bakersfield Station and AEP Texas will construct, own, operate and maintain the western half of the transmission line connecting to AEP Texas' Solstice Switch Station. The entire project will range from approximately 68 to 92 miles in length and is estimated to cost approximately \$194 million to \$237 million (including station costs), depending upon the final route chosen by the PUC.

Your land may be directly affected in this docket. If one of LCRA TSC and AEP Texas' routes is approved by the PUC, LCRA TSC and AEP Texas will have the right to build the facilities, which may directly affect your land. This docket will not determine the value of your land or the value of an easement if one is needed by LCRA TSC or AEP Texas to build the facilities.

If you have questions about the transmission line, you can call 512-578-2692. The descriptions of the proposed routing alternatives and a map showing the proposed alternative routes are enclosed for your convenience.

The CCN application, including detailed routing maps illustrating the proposed transmission line project and project area, may be reviewed on the project website at [www.lcra.org/baksol](http://www.lcra.org/baksol) and at the Pecos County Clerk, 200 S. Nelson St., Fort Stockton, Texas 79735.

***All routes and route segments included in this notice are available for selection and approval by the Public Utility Commission of Texas.***

The enclosed brochure entitled "Landowners and Transmission Line Cases at the PUC" (also available online at [www.puc.texas.gov](http://www.puc.texas.gov)) provides basic information about how you may participate in this docket, and how you may contact the PUC. Please read this brochure carefully. The brochure includes sample forms for making comments and for making a request to intervene as a party in this docket. ***The only way to fully participate in the PUC's decision on where to locate the transmission line is to intervene in the docket. It is important for an affected person to intervene because LCRA TSC and AEP Texas are not obligated to keep affected people informed of the PUC's proceedings and cannot predict which route may or may not be approved by the PUC.***

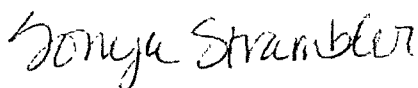

In addition to the contacts listed in the brochure, you may call the PUC's Customer Assistance Hotline at 888-782-8477. Hearing- and speech-impaired individuals with text telephones (TTY) may contact the PUC's Customer Assistance Hotline at 512-936-7136, or toll free at 800-735-2989. **If you wish to participate in this proceeding by becoming an intervenor, the deadline for intervention in the proceeding is January 23, 2019 and the PUC should receive a letter from you requesting intervention by that date.** Mail the request for intervention and 10 copies of the request to:

Public Utility Commission of Texas  
Central Records  
Attn: Filing Clerk  
1701 N. Congress Ave.  
P.O. Box 13326  
Austin, Texas 78711-3326

People who wish to intervene in the docket must also mail a copy of their request for intervention to all parties in the docket and all people who have pending motions to intervene, at or before the time the request for intervention is mailed to the PUC. In addition to the intervention deadline, other important deadlines may already exist that affect your participation in this docket. You should review the orders and other filings already made in the docket. The enclosed brochure explains how you can access these filings.

Thank you for your interest in this project.

Sincerely,

Sonya Strambler
